

### ***Topics for Future OEAB Discussion***

1. OEAB continue to engage other agencies with Ocean Exploration-related missions:
  - USGS (done)
  - OER (done)
  - Navy Ops (done)
  - Navy ONR
  - NASA
  - BOEM
  - NSF
  - DARPA
2. Discuss how to communicate drivers, utility, and success OUTWARD
  - To different audiences
  - Develop two-sentence “elevator speech”
  - Ask Dr. Ballard to discuss messaging about ocean exploration
3. Discuss how to “sync” science community list of priorities with NOAA requirements lists
  - give feedback to the science community about how its input is used
  - inform the science community about opportunities to pursue OER priorities).
4. Focus on establishing ocean exploration campaigns as the model for National Ocean Exploration Program partnership planning
  - Receive a briefing by OER with other agency partners on the SE Atlantic Campaign—starting with the story.
5. Review large and small grant opportunities within OER with an eye toward expanding the reach of OER investments in competitive (FFO) and non-competitive (BAA) grants.
6. Discuss the results of the Strategic Plan Review Subcommittee established in St Petersburg.
7. Provide input on the FY19 Strategic Research Guidance Memorandum.
8. Meet with National Ocean Industry Association officials; membership.
9. Develop ocean exploration transition documents for use with Presidential campaigns and then the new Presidential Transition Team.
